BRJC meeting 15th September 22

- There are discussions taking place about the format of the National Schools Regatta in future. Often events are over subscribed (eg I think they said there were 67 entries in WJ15 4x+). This means a lot of crews only get 1 race. There will probably be limit to number of entries per event for each club. Qualifying/Selection was discussed but not popular.
- Juniors racing up was also discussed, particularly J13 racing J14 events. Although allowed at most events on BROE GB coaches advised that coaches should be patient and let them develop at their own pace.
- Proposal of a Northern Junior Head at Runcorn, possibly Sunday 5th March 2023.
- Women's Development Day on Sat.15th October 2022 at NWSC. Nottingham.
