

Masters report to NRC June 2023
Gabrielle Moore

Competitions

National Masters will be at Nottingham again even though there was talk it would be at Strathclyde, since Strathclyde can't host because of other bookings. There was discussion around non champs being offered (remember it was taken off the timetable then added back in when many people complained).

Many more non champs entries were from younger rowers, A to C in various boats.

Henley Masters are giving pins to those competing who are 80+ and will be awarding these retrospectively...get in touch yourself via entries@henleymastersregatta.org.uk

At the last meeting there was discussion about insurance, please see attachment to this email

Trans rowing: only people born women can enter Women's events, anyone else can enter as open.
