

## Driving directions to Cambois RC for JIRR regional trials 16 March 2024

The railway crossing on the B1334 is closed so you can follow the alternative routes shown.

There is a sign saying road closed at crossing at North Seaton roundabout (A189) but go down it otherwise it will take you through Ashington town centre.

The route from North Seaton roundabout going through North Seaton will have you pointing the right way to go down to the club.

Going through Stakeford will have a sharp turn back down to the club - take care.

First map for cars but second is best for trailer drivers (apart from turn back in to club!)
